

Totarol™

The world's new natural active

Totarol™ is a naturally occurring plant extract with potent anti-bacterial activity against both gram positive and gram negative bacteria. Totarol™ has also potent anti-oxidant properties.

The most abundant source for Totarol™ is the heartwood of New Zealand's Totara Tree.

Totarol™ is a natural extract from Totara heartwood, enriched in the aromatic diterpenoid, totarol: $C_{20}H_{30}O$
